Islamabad

SKILLS

- JavaScript (ES6+)
- React.js Next.js
- Node.js(Express)
- MongoDB
- Redux/RTK React Query, SWR
- HTML5 & CSS3 Bootstrap
- Tailwind CSS Agile and Scrum
- Methodology
- GraphQL RESTful API
- TypeScript
- Docker, Kubernetes
- GitHub Actions (CI/CD)
- AWS (EC2,IAM,S3,VPC)

EDUCATION

Bachelor's In Computer Science
Islamia University

2020-2024

Intermediate (FSC-Pre Engineering)
Govt. Sadiq Egerton College

2018-2020

LANGUAGES

English

Urdu

Punjabi

PROFILE

As a software engineer, I'm passionate about creating innovative solutions that make a difference. With a strong foundation in programming languages. I bring a collaborative and detail-oriented approach to every project. Let's build something great together. Feel free to contact me.

WORK EXPERIENCE

MERN Stack Web Developer

Algo 3

Jan 2024–Jun2025

- Developed full-stack web applications using JavaScript, with frameworks like React.js, Next.js, and TypeScript to build responsive UIs and modular components.
- Built and integrated secure RESTful APIs using Node.js, Express.js, and MongoDB for efficient backend services and data handling.
- Implemented user authentication, state management (with Context API or Redux), and integrated external APIs such as OpenWeather and GitHub.
- Followed modern JavaScript best practices including testing, version control with Git, and clean, maintainable code for scalable application development.

Devops & System Trainee

Daz Teach

Jun 2025 - Aug 2025

- Infrastructure & Cloud: Managed Linux environments and AWS services (EC2, S3, IAM) while supporting VM-based clusters and Kubernetes fundamentals.
- Automation & CI/CD: Developed and maintained CI/CD pipelines using Git and GitHub Actions/Jenkins, leveraging Bash scripting for task automation.
- Containerization & Operations: Containerized applications via Docker and improved system reliability through proactive monitoring, log analysis, and troubleshooting.

React Js Developer

Yns Systems

Aug 2025 - Feb 2026

- Built and managed dynamic user interfaces using React.js, with a focus on component-based architecture and reusable UI elements.
- Integrated RESTful APIs and managed application state using tools like React Context and Redux for scalable frontend applications.
- Practiced version control using Git, collaborated via GitHub, and applied basic CI/CD workflows for front-end deployment.
